

Following the worldwide success COBRA, which achieved sales in the thousands across the globe, Ayrton proudly introduces MAMBA—a groundbreaking and versatile lighting innovation. This fixture, equipped with a laser source twice as powerful as its predecessor, delivers an array of stunning psychedelic effects that redefine the boundaries of visual artistry.

**M**AMBA boasts unmatched graphic capabilities, with 18 motors dedicated exclusively to creating mesmerizing effects. Its design includes a vast selection of 92 fixed and rotating gobos spread across two wheels, optimized for sculpting light in “beam” mode. Offering an unprecedented range of graphic options, MAMBA represents a first in the realm of laser luminaires. Every detail of its design reflects Ayrton’s dedication to innovation and precision, achieving a flawless fusion of cutting-edge technology and bold, sophisticated aesthetics.

## ★ KEY FEATURES

### ➤ Visually Stunning Design

Ayrton introduces MAMBA, a masterpiece of engineering and design. With its XXL 250 mm lens seamlessly integrated into a sleek and refined body, MAMBA establishes a new standard in the laser series, offering a distinctive visual signature that captivates the eye.

### ➤ Advanced Prism System

MAMBA’s two-part brand-new prism system offers exceptional creative versatility.

- **Primary Prism Stage:** Two palettes, each with four independently rotating prisms, can be combined for versatile effects.
- **Multiplier Prism Stage:** Four additional blendable prisms at the front of the fixture further enhance the creative possibilities, allowing for complex volumetric lighting effects by multiplying the looks from the primary prism section.

### ➤ Conscious Engineering

New lightweight aluminium components have been used to significantly reduce the overall weight, achieving the best weight-to-power ratio in its class without relying on costly or unstable special alloys.

### ➤ Unmatched Power

Designed for live entertainment, MAMBA delivers a striking metallic white light with an extraordinary luminous intensity of 2,600,000 lux at 10 meters and a colour temperature of 9000 Kelvin, ensuring unmatched clarity and vibrancy.

### ➤ Innovative Colour Technology

Equipped with the state-of-the-art high-definition gradient CMY mixing system first launched with Rivale Profile, MAMBA ensures smooth and precise colour transitions. Its instant-access 2D-ColorWheel™ adds further flexibility, featuring 15 complementary colour filters, two multicolour filters, two CTP correctors, a progressive CTO, and three multicolour sections—RGB, CMY, and RGB+CMY—arranged over two concentric circles for dynamic and vibrant colour effects.

### ➤ Compact and Lightweight

MAMBA redefines the capabilities of laser luminaires by delivering exceptional brightness and advanced graphic features in a remarkably compact design. Weighing only 41 kilograms, it combines powerful performance with a lightweight and portable form, making it a groundbreaking choice in its class.
