

Fusion Bar Q XV

LEDBAR015

The Fusion Bar Q XV is a feature packed LED Bar which has quickly become the workhorse of the industry. With an IP65 rating, True1 in and through as well as W-DMX this bar can be easily deployed in all environments with little hassle. A tour grade construction and fan-less operation means little maintenance is required and makes this unit extremely reliable. Different personalities allow for easy operation as well as more advanced individual pixel control allowing for endless opportunities for great eye-candy effects.
