

# R3 Wash

## LEDMOV430

The R3 wash is a small, yet powerful and extremely versatile fixture equally suited to on stage duties as a narrow beam fixture as it is in a theatrical lighting application. The large 4° to 60° zoom range allows for fat bright beam looks through to large area washes thanks to a high output from the 7x 40W LED chips. Featuring RGB + Warm White LED chips, a large colour palette can be achieved allowing for bold and saturated colours through to subtle pastels and amazing gold and ambers. Superfast 16-bit Pan and Tilt and ultra smooth dimming round out a first class feature set in this tiny 7kg package.
