

FusionPAR H XII

LEDPAR123

The FusionPAR Q XII is a rugged outdoor rated fixture which is both lightweight and compact. HEX colour mixing (RGBAW+UV) allow for saturated colours as well as subtle pastels to be achieved. With UV chips a number of interesting effects can be created. Being passively cooled, it is silent in operation but also allows for an IP65 rating, allowing it to be used in outdoor settings as well as environments where minimal noise is required. A die-cast aluminium casing makes this fixture the choice for touring and production houses, as well as extra flexibility with the double mounting bracket allowing for the Par to be easily floor mounted or flown.

Specifications

Optical System

Lamp Source	12 x 10W RGBAW + UV
Beam Angle	24°

Electrical Specifications

Voltage	100–240VAC 50/60Hz
Max Power	116W
Power Connection	True1 In/Out
Signal Connection	5pin DMX In/Out

Work Environment

Ambient Temperature	-20°C to 40°C
IP Rating	IP65

Photometrics

Control System

Dimmer	0 to 100% 8-bit
Cooling	Passive
Control	DMX512, W-DMX
Display	On board control
Personality	6ch, 8ch, 13ch

Appearance

Size	322 x 305 x 177mm
Weight	6kg
Casing	Die-cast aluminium
Colour	Black

Optional Accessories

- LEDPAR125-** Barndoor
- LEDPAR140-** 10° Lens
- LEDPAR141-** 45° Lens
