

Desk Dough® Beam
the product

- first of its kind 100% digital lighting fixture
- acts and feels like a lighting fixture with all known parameters like: pan/tilt - zoom - frost - prism - gobo - rotation
- variability of lighting sources depending on the projector used
- cue based programming of real time shaded gobos
- overcomes mechanical limitations (255facet prism, nearly unlimited gobos)
- 3 individually controllable lighting layers out of one lighting source
- frosted and sharp beams at the same time out of the same fixture
- 2-Color-Vignettes and Edges
- Custom Gobos are possible
- is milled out of a solid aluminium block
- (comes with a) built-in ePaper Display (even when turning off the Desk Dough all important informations will remain readable on the Display)
- optional lockable power cord (lockable like a Power-Con cable but widely spread and a high availability all over the world)
- controllable via ArtNet or sACN
- built-in presets for standalone mode without a lighting desk
